

Publishing in Royal Society of Chemistry Journals*: Workflows and Services

- 1) On acceptance of manuscript, authors get an email with a link to the licensing system.
- 2) The link takes them to a page with the details of the manuscript provided at submission.
- 3) Author clicks Start now

System automatically identifies the author as being from a Read & Publish institute based on the author email domain

* Valid from 2019 for University of Basel authors submitting articles in RSC hybrid journals.
This workflow is not applicable to the gold OA journals Chemical Science, Nanoscale Advances and RSC Advances.

[UNIVERSITY NAME APPEARS HERE]

Your institution has a Read & Publish open access agreement with the Royal Society of Chemistry, which means that your institution will automatically cover the article processing charge (APC) allowing you to publish your article gold open access.

Select an open access licence

SIGN YOUR LICENCE ONLINE

We offer a choice of two Creative Commons licences. Creative Commons is a global non-profit organisation, offering free open access licences. Further information is available on the [Creative Commons website](#). You may select the appropriate licence according to your funding body and research institute requirements or your personal choice.

CC BY - Creative Commons Attribution

Allows other users to reuse, distribute, and build upon the work, even commercially, with full original author attribution.

CC BY-NC - Creative Commons Attribution Non-Commercial

Allows other users to reuse, distribute, and build upon the work, non-commercially, with full original author attribution.

Select an open access licence. You will then need to agree to the licence terms.
